It's one small step for man,
one Giant leap for Mankind.

—— Neil Armstrong

ABOUT

ELECTRO NERVES CONTROL-

Electro Nerves control systems - ENCS help you organize, connect, and protect wires and cables for optimal performance. With proven cost-cutting strategies, technical support, and worldwide product availability, our wire harness solutions may help you minimize wire harness assembly time, enhance productivity, and improve safety.

ENCS is a Dynamic and Innovative startup with over 25-years in the industry, we have strong expertise in the engineering , designing, manufacturing, and supplying top-quality wire harness solutions.

ENCS have facility to manufacture specialized wiring harness for white goods, **office automation equipment, power electronics , automobile, control panels**, various types of **machinery, medical diagnostic equipment** and other electrical and electronic equipments.

ENCS is an ISO 9001:2015 certified manufacturing company of Wiring Harness and Control Box.

Built on a foundation of **Trust, Reliability** and **Passion** for continuous *Innovation, Excellence* to become your s preferred partner for all your wire harness needs.

OUR MISSION

To spread across the globe by enriching long term relationship with our customers and providing them with standardized products and services driven by our core values of integrity, dedication and maintaining quality.

OUR VISION

To exceed the expectations of our esteemed customers by delivering quality Products and Services

With one of the most skilled engineering teams in the business working for us on staff, we can create your custom wire harness prototypes fast and deliver them to you with success.

Our engineering staff can collaborate closely with you to assist in the development of such prototypes if required.

OUR PRODUCTS

- ▶ Control Panel assembly
- ▶ Custom Built Wire Harness
- ▶ Battery Cable Wire Harness
- ▶ Medical Devices and Equipment
- ▶ Battery Switch Boxes, MCCB Boxes
- ▶ Automotive Wire Harness and Assemblies
- ▶ UPS Wire Harness, Power distribution Wire Harness
- ▶ Thermal Control & Monitoring Units Control and Power Cables
- ▶ Refrigerator and Freezer Wire Harness, Medical Devices and Equipment
- ▶ Power Generator Wire Harness – Diesel, Hydro, Solar and Wind Turbines
- ▶ Telecommunication Wire Harness, HVAC, Controller & Chiller Wire Harness

KEY SERVICES

» CUSTOM WIRE HARNESS DESIGN

Our skilled engineers meticulously design wire harnesses tailored to your specific requirements, ensuring seamless integration and optimal performance.

» QUALITY ASSURANCE

Quality is our utmost priority. Each wire harness undergoes rigorous testing to guarantee its durability, diverse electrical characteristics, and performance under varying conditions.

» ON-TIME DELIVERY

We understand the importance of timely delivery in the fast-paced business world. Our streamlined processes ensure that your wire harnesses are delivered on schedule, every time.

» WHY CHOOSE ELECTRO NERVES CONTROL SYSTEM

Experience: With +23 years of industry experience, we possess a deep understanding of wire harness solutions and industry best practices.

» CUSTOMIZATION

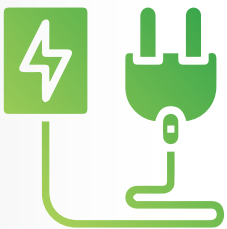

We pride ourselves on offering custom built solutions that cater to your specific needs, ensuring maximum efficiency and cost-effectiveness.

» QUALITY COMMITMENT

Our commitment to quality is unwavering. We go the extra mile to deliver wire harnesses that meet or exceed international standards.

» CLIENT-CENTRIC APPROACH

Your success is our success. We work closely with clients, providing personalized attention and support throughout the project lifecycle and beyond.

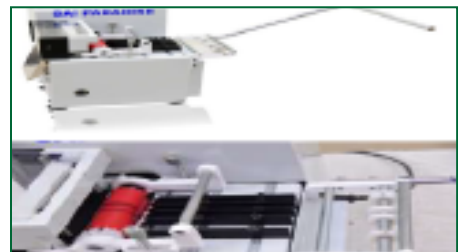

INFRASTRUCTURE

- » Patch Cord Crimping Machine for : CRJ-45
- » Digital Push Pull Load tester Capacity : 0 to 50 Kgs
- » Motorized Push Pull Load tester with Pen Drive. Capacity : 0 to 500 Kgs
- » 30 Ton Servo Crimping Machine Can crimp from : 10.0 to 120.0 SQ.MM Cables

**RJ45 CRIMPING
MACHINE**

**SLEEVE CUTTING
MACHINE**

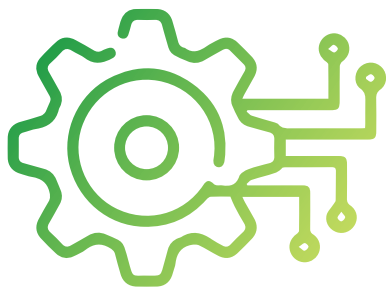

- » Fully Automatic Cable Cutting & Stripping Machine Cable Size : 0.25 to 4.00 SQ.MM
- » 5 Ton Gear Transmission Crimping Machine Max Crimp Cross : 2.00 to 16.00 SQ.MM Cable
- » 2 Ton Eco Gear Transmission Crimping Machine with Applicator Max Crimp Cross : 0.25 to 4.00 SQ.MM Cable
- » Digital Sleeve Cutting Machine: Max sleeve width : 1.0 MM to 80.0 MM
- » Oven Machine for Heat Shrink Sleeve & Heat Shrink Ferrules
- » Wiring Harness Tester with On-line Printer for Traceability.
- » IS, CE, UL, DIN, RoHS & MIL Grade Materials

**HEAT SHRINK
CONVEYER**

**WIRING HARNESS
TESTER**

**2T CRIMPING
MACHINE**

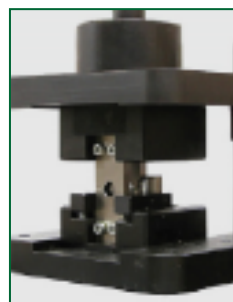

**5T CRIMPING
MACHINE**

**POWER CABLE
CUTTING & STRIPPING**

**MULTICORE CABLE
STRIPPING MACHINE**

APPLICATORS

**CABLE PULL-OUT
TESTER**
